Laura,

My understanding is that Amy with the SHPO office will be meeting with the Brownfields program at 9:00, which is a separate meeting than the with response unit. We decided to do different meetings since the brownfields program and the response program function differently with different timeframes (NHPA verse NCP). As a result, you will not need to account for Brownfields folks in your room. We have the snake river room reserved for 9:00 and can easily hook a computer up to the screen.

I'm sending an email to SHPO to find out if they have presentation needs and will CC you and Marty.

Martin and Danny,

Our meeting room has been switched yet again, we are now in the Timberline room (still the conference center). However, if SHPO wants to do a video presentation, we will need to bring our own projector(?). I assume we have one but didn't want to have folks do extra work if this will be more of a discussion and no projector is needed.

Also, our room will accommodate 22 people which I am hoping will be sufficient as I expect several OSCs will still be in the field. Dan, do you know how many from your group will be attending? - lw

Hi Amy,

Great, thanks for confirming. I'm glad November 3rd will work for you to meet with the brownfields program. I believe you know the routine for getting into our building (need an ID to go through our security). I've reserved a conference room on the 4th floor - so I'll meet you in the lobby to bring you up to the 4th floor. Let me now know if you want touch base before coming since it has been awhile since I met with you in person about setting up this meeting. See you in a couple of weeks.

Thanks, Stephanie

Hello Stephanie,

I am sorry, I realized I did not respond to you.

I will be available on 11/3 to come to your office at 9:00am

Thank you,

Amy

Hello Stephanie,

I totally understand, and not a problem to move the meeting. At this time either 10/6 or 10/20 works for me.

I did do a search of our database for projects following the Gold King Mine breach, and did not see that EPA had initiated Section 106 consultation with our office. Do you know who I could follow up with at EPA in regards to the Section 106 compliance for the Gold King Mine project?

Thank you,

Amy

Hi Amy,

August 25th is just a few weeks out and I just wanted to check in and confirm that August 25th will still work for you to meet with us about coordinating with the Colorado SHPO office. The Brownfields program is scheduled to meet with you at 9:00 and the removal Program at 10:00. Feel free to contact me with anything related to the brownfields program discussion and Marty (312-6963) with anything related to the removal program discussion.

Thanks,
Stephanie

Hi Amy,

-

I wanted to touch base and see if you were still interested in
meeting the Brownfields folks and the Response Unit. If so,
Would Tuesday, July 28th, August 11 or August 25th work?

-

I'm reiterating some information we discussed since it has
been awhile since we met. We discussed setting a day where
you could meet with the Brownfields Team at 9:00 and the
Response Unit at 10:00. If you would like at the beginning of
the meeting each of our groups could give a brief 5 minute
overview of our program, what we do and where our work
typically crosses paths with your organization.

Response Unit: The Response Unit would find it beneficial to
talk about the following document and understand how they
can better coordinate with SHPO.

http://www.rrt8.nrt.org/production/nrt/RRTHomeResources.nsf/resources/RRT8_RCP/

Brownfields: Would also like to discuss with you how to better
coordinate with the Colorado SHPO office. The Brwownfields
team has a general understanding of NHPA and I wouldn't
recommend going through that document section by section.
However, specifics on how to coordinate with your SHPO
office would be most helpful since every State office is
different. Covering any of the following topics would be
helpful:

- the specific process you would like us to follow for
consulting with the Colorado SHPO office
- explanation of the various forms and who does what
at the SHPO
- explanation of the rationale behind determinations
of National Register eligibility
- a list or description of potentially interested public. I
believe Colorado has a statewide preservation advocacy

non-profit, it might be helpful to talk to our group about what that is, where it is accessible and how its applicable. Any thoughts you have on other stakeholders and how they could be involved.

- some case studies/letter correspondence with highlights that are helpful to reinforce earlier points and give people new to the process something a little more tangible to think about - good examples of you would like the correspondence with you SHPO office to look would be helpful including examples from other federal agencies.

-

Thanks,

Stephanie

Amy,

-

Please feel free to present what you think would be most beneficial to the brownfields program. I think folks on our brownfields team have a general background of NHPA, but specifics for working with Colorado SHPO would be helpful. Here are list of specific things that I have found helpful in my discussions with other SHPO offices :

- the process for consulting with their office
- explanation of the various forms and who does what at the SHPO
- explanation of the rationale behind determinations of National Register eligibility
- a list or description of potentially interested public. I believe Colorado has a statewide preservation advocacy non-profit, it might be helpful to talk to our group about what that is and how its applicable. Also, if you have thoughts on other stakeholders and how they should or could be invovled.
- some case studies/letter correspondence with highlights are helpful to reinforce earlier points and give people new to the process something a little more tangible to think about.

-

Thanks,

Stephanie

Hi Amy,

-

I wanted to throw out some dates/ideas that we can talk about further tomorrow when we meet around 9:45 after your meeting in our building. I think it makes sense to meet with the Brownfields and the Response Unit Staff separately, but on the same day and back to back to best utilize your time. I've listed a few optional dates that coincide with the response unit's staff meetings and we can fine tune the amount of time needed to meet with each of our groups after we meet tomorrow.

-

Would any of the following dates work to meet with the Brownfields team (maybe at 9:00, 9:15, 9:30 am - what do you think?). Then meet with the Response Unit at 10:00 am (15, 20, 30 minutes what do you think?) for the beginning of the Response Units staff meeting on May 5, May 19, June 16 or June 30?

-

For the Brownfields team, it may be helpful for you to go through some of the NHPA process stuff (who to contact at the SHPO office and what to submit) or other items that you feel would be helpful to discuss based on your experience/concerns.

-

The Response Unit would like to walk through the following document and understand how we can better coordinate with SHPO.

http://www.rrt8.nrt.org/production/nrt/RRTHomeResources.nsf/resources/RRT8_R

-

Thanks, Stephanie
